01 What is EverRise Network

A decentralized network marketing protocol on Binance Smart Chain

EverRise Network is the first MLM protocol with fully decentralized admin control — built on immutable smart contracts that no one can modify after deployment.

Immutable Rules

All commission rates, placement logic, and fund allocation are hard-coded. No one — including the creator — can change them.

Unstoppable Platform

UI hosted permanently on Arweave. ENS domain renewable by anyone. Self-hostable by any community member globally.

Transparent by Design

Every transaction is publicly verifiable on BSCScan. Open-source contracts, no hidden admin keys, no backdoors.

02 EverRise's Goals

Three problems solved simultaneously — by code, not by promises

01

Eliminate Founder Discretion

All rules, reward rates, and fund allocations are locked in code at deployment. No admin, no override, no rug pull. The creator cannot change the terms any more than any other participant.

02

Permanently Growing Liquidity

30% of every fee (20% LP + 10% buyback) is locked into the pool forever. LP tokens are burned immediately to 0x...dEaD — the pool can only grow, never shrink.

03

Incentivize Long-Term Behavior

Every mechanism — matrix, matching, cap, vesting — is designed to make sustaining the network more profitable than extracting from it. The system rewards builders, not extractors.

03 Member Benefits

Six income streams and protections built into the smart contract

30%

Matrix Commission

of each join/renewal fee distributed across 10 upline levels

≈35%

Matching Bonus

50% of your direct referral's net withdrawals — infinite depth

10%

Buyback & Burn

reduces EVR supply, creates buy-side pressure continuously

5%

Elite Pool

global pool shared by qualified members via Elite Points

120% value

EVR Token Vesting

token bonus on your first join at each rank, released over 22 months

20%

Permanent Liquidity

LP burned forever — pool only deepens, never shrinks

04 Matrix Placement

Binary 2x10 matrix — intelligent spillover ensures everyone benefits

1 Binary Structure

Maximum 2 downline positions per member per rank level.

2 Single Leg Start

New members begin with 1 leg. The second leg unlocks after referring 3 direct F1 members.

3 Top-Down Left-Right

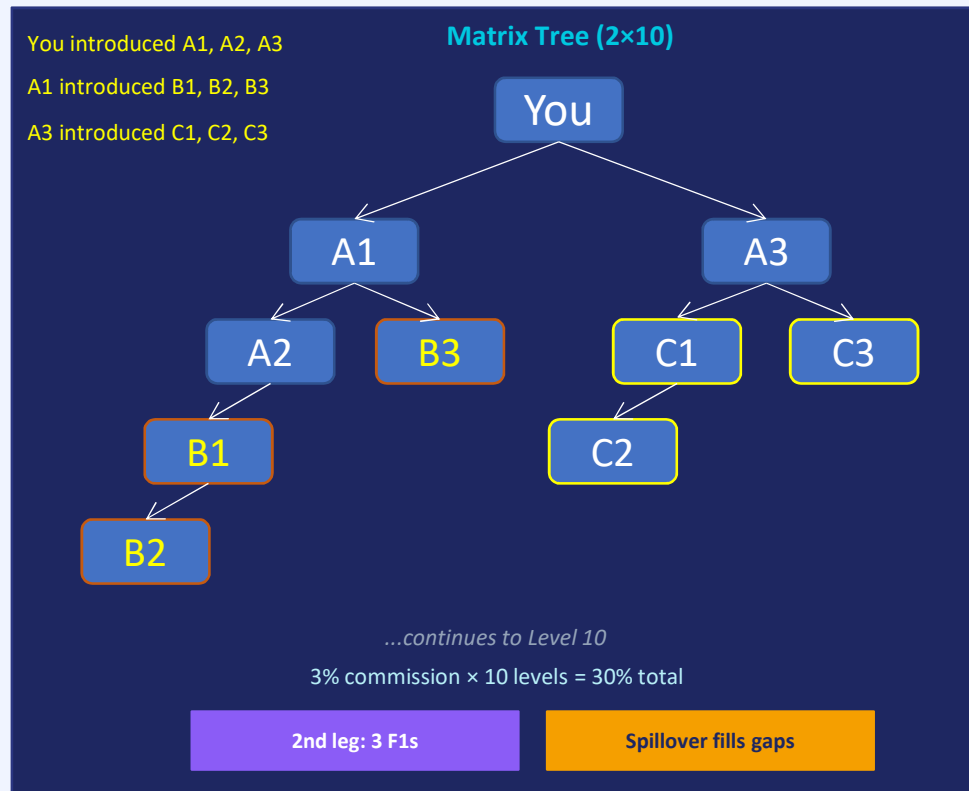

New joiners placed under sponsor from the highest available position, level by level, left then right.

4 Spillover

When a sponsor fills, overflow is placed under existing downlines — passive members benefit automatically.

5 Referral Preserved

Referrals remain your direct F1 for Elite Pool & Matching — regardless of matrix position.

05 Matrix Commission

3% per level × 10 levels = 30% of every fee distributed immediately

Level	Rate	Example (\$160 fee)	Cumulative
Level 1	3%	\$4.80	\$4.80
Level 2	3%	\$4.80	\$9.60
Level 3	3%	\$4.80	\$14.40
Level 4	3%	\$4.80	\$19.20
Level 5	3%	\$4.80	\$24.00
Level 6	3%	\$4.80	\$28.80
Level 7	3%	\$4.80	\$33.60
Level 8	3%	\$4.80	\$38.40
Level 9	3%	\$4.80	\$43.20
Level 10	3%	\$4.80	\$48.00
TOTAL	30%	\$48.00	Per join

Key Rules

- ✓ Commission paid immediately on each join or renewal
- ✓ You must be active in the same rank to receive it
- ✓ If your rank expires, commissions for that rank are missed
- ✓ 10 levels give you full depth access to team activity

Example: Rank 5 (\$160 fee)

Team member joins Rank 5:
You earn \$4.80 per level
× 10 levels = \$48.00 total commission

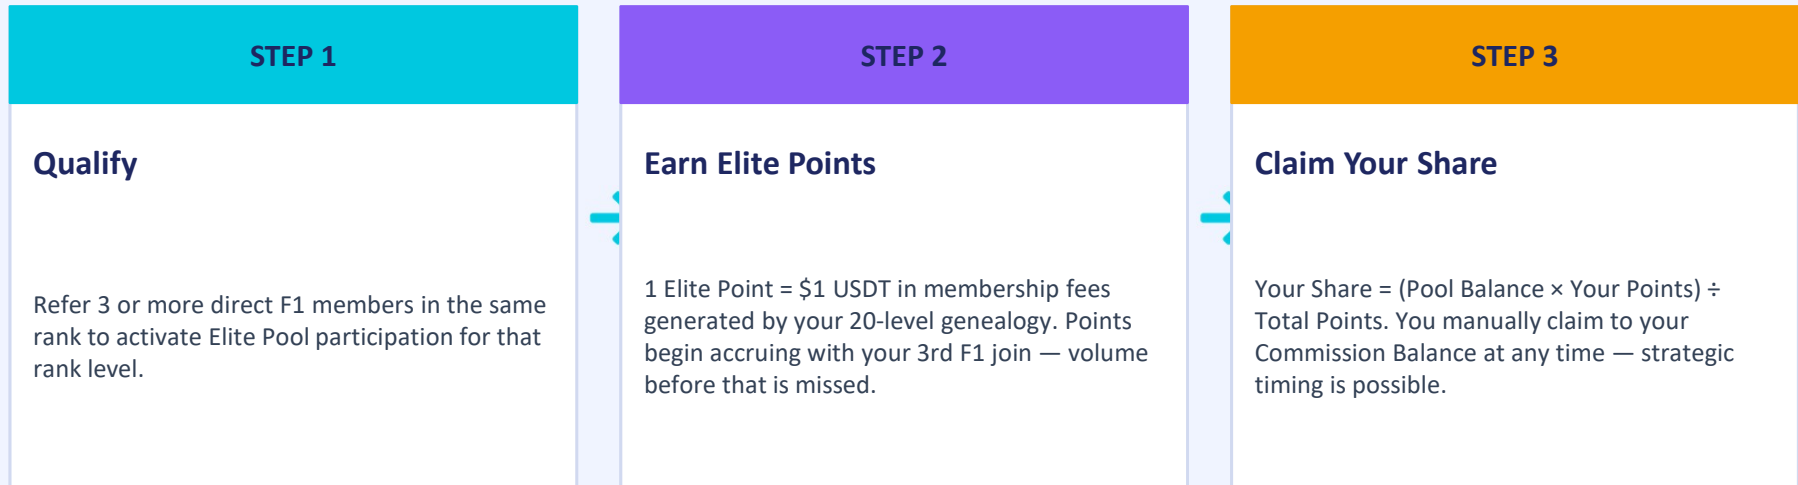

05 Example

3% per level × 10 levels = 30% of every fee distributed immediately

Level	Rate	# Member	Rank 1 (\$10)	Rank 2 (\$20)	Rank 3 (\$40)	Rank 4 (\$80)	Rank 5 (\$160)	Rank 6 (\$320)	Rank 7 (\$640)	Rank 8 (\$1.280)	Rank 9 (\$2.560)	Rank 10 (5.120)
1	3%	2,00	0,60	1,20	2,40	4,80	9,60	19,20	38,40	76,80	153,60	307,20
2	3%	4,00	1,20	2,40	4,80	9,60	19,20	38,40	76,80	153,60	307,20	614,40
3	3%	8,00	2,40	4,80	9,60	19,20	38,40	76,80	153,60	307,20	614,40	1.228,80
4	3%	16,00	4,80	9,60	19,20	38,40	76,80	153,60	307,20	614,40	1.228,80	2.457,60
5	3%	32,00	9,60	19,20	38,40	76,80	153,60	307,20	614,40	1.228,80	2.457,60	4.915,20
6	3%	64,00	19,20	38,40	76,80	153,60	307,20	614,40	1.228,80	2.457,60	4.915,20	9.830,40
7	3%	128,00	38,40	76,80	153,60	307,20	614,40	1.228,80	2.457,60	4.915,20	9.830,40	19.660,80
8	3%	256,00	76,80	153,60	307,20	614,40	1.228,80	2.457,60	4.915,20	9.830,40	19.660,80	39.321,60
9	3%	512,00	153,60	307,20	614,40	1.228,80	2.457,60	4.915,20	9.830,40	19.660,80	39.321,60	78.643,20
10	3%	1.024,00	307,20	614,40	1.228,80	2.457,60	4.915,20	9.830,40	19.660,80	39.321,60	78.643,20	157.286,40
Total	30%	2.046,00	613,80	1.227,60	2.455,20	4.910,40	9.820,80	19.641,60	39.283,20	78.566,40	157.132,80	314.265,60

06 Elite Pool

5% of all network fees — shared proportionally by Elite Points

Formula: $\text{Your Share (USDT)} = (\text{Elite Pool Balance} \times \text{Your Elite Points}) \div \text{Total Elite Points in Network}$

Example: Elite Pool = \$10,000 · Your Points = 2,000 · Total Network Points = 20,000 → Your Share = \$1,000

07 Matching Bonus

50% of your direct referral's net withdrawal — cascades infinitely upward

Cascade Effect

YOU			← Receive matching
F1	Earns \$1,000	Withdraws · net \$980	You get \$490
F2	Earns \$1,000	F1 gets \$490 · net \$480	You get \$240
F3	Earns \$1,000	F2→F1 chain · net \$118	You get \$59
F4+	Continues...	Each gen cascades up	You keep earning

Key Rules

- ✓ Calculated on F1's NET withdrawal (after 2% fee)
- ✓ Triggers when F1 withdraws — not when they join
- ✓ No rank restriction on the matching source
- ✓ Allocated sequentially: Rank 1 → Rank 2 → ... → Rank 10
- ✓ Missed matching is recorded on-chain, not reclaimable

08 Earning Cap (300%)

Each rank earns up to 3× its entry fee — independently from other ranks

Rank	Entry Fee	Max Earning (3×)
Rank 1	\$10	\$30
Rank 2	\$20	\$60
Rank 3	\$40	\$120
Rank 4	\$80	\$240
Rank 5	\$160	\$480
Rank 6	\$320	\$960
Rank 7	\$640	\$1,920
Rank 8	\$1,280	\$3,840
Rank 9	\$2,560	\$7,680
Rank 10	\$5,120	\$15,360

How the Cap Works

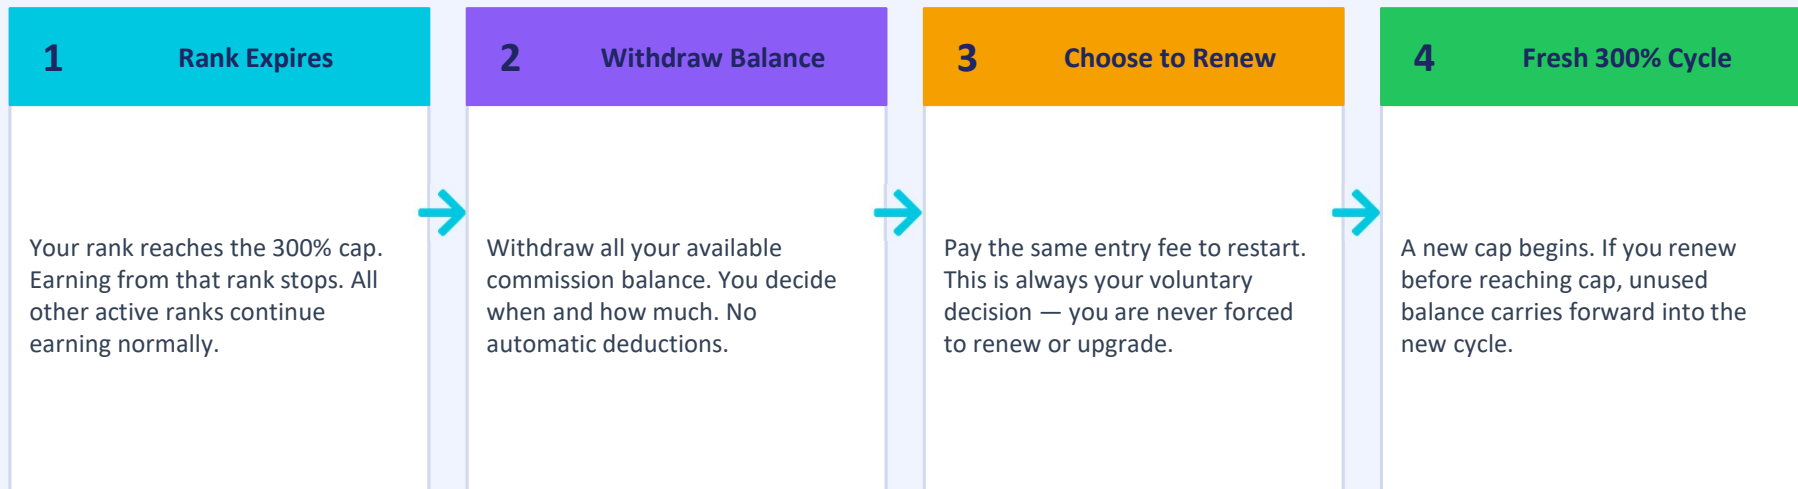

- ✓ Each rank operates independently
- ✓ All income types count toward cap: Matrix + Elite Pool + Matching
- ✓ When a rank hits cap → it expires
- ✓ Expired rank stops earning until renewed
- ✓ Other active ranks continue normally
- ✓ Matching flows to next available rank cap

Rank 1 Example

Entry: \$10 · Cap: \$30
Earn \$30 → rank expires
Withdraw all → renew for \$10
New \$30 cap begins

09 Renewal

Restart your earning cycle — voluntary, flexible, no forced upgrade

Upgrading is always optional. Stay at any rank and repeat the 300% cycle indefinitely — no pressure to move to a higher rank.

Early Renewal: Renewing before hitting cap carries the remaining unused balance forward into the new cycle.

No vesting on renewals — vesting (120%) is awarded only on your first-time join at each rank, not on subsequent renewals.

Bonus: EVR Token Vesting (120%)

Token bonus on first join at each rank — a risk buffer, not a return guarantee

When you join a rank for the first time, you receive EVR tokens worth 120% of the entry fee, calculated at the TWAP price (average of last 100 swaps). Vesting is awarded on first join only — not on renewals.

70-Day Cliff

Tokens are fully locked for the first 70 days. No tokens can be claimed during this period.

5% Per Month

Starting from Day 100, 5% of your total vesting unlocks every 30 days across 20 unlock events.

670-Day Total

Complete vesting takes approximately 22 months. Claim any unlocked amount at any time after the cliff.

TWAP Protection

Token amount uses the average of last 100 swaps — not spot price. Guards against price manipulation.

⚠ Vesting is not a guaranteed return in dollar terms. The 120% value is calculated in EVR tokens at join time. If EVR price falls significantly, the dollar value of your vesting may be less than 120% of your entry fee.

10 Membership Transfer

Move your entire account to a new wallet — secure, permissionless, 7-day cooldown

1

Request Transfer

Call reqXfer() from your current wallet. A 7-day waiting period begins. You can cancel at any time during this window.

2

7-Day Cooldown

Mandatory waiting period protects against unauthorized transfers. Account remains fully active and earning during this time.

3

Activate

After 7 days, call activateXfer() from your current wallet. Only you can activate it — no one else can proceed.

4

Complete

Call xfer(newAddress). Your entire account moves: ranks, earnings, vesting, referral history. The new address must be unregistered.

What Transfers

- ✓ All active ranks
- ✓ Commission balance
- ✓ Vesting schedule
- ✓ Matrix position
- ✓ Referral relationships
- ✓ Elite Pool points
- ✓ Sponsor chain history

Note: The new wallet address must not already be registered in EverRise. Transfer is irreversible once completed.

The rules are in the code.

No one can change them.
