# Before You Begin

## Requirements & Preparation

### ① BEP20 Blockchain Wallet

You need a crypto wallet compatible with the BNB Chain (BEP20 standard). MetaMask is strongly recommended for the best experience.

### ② BNB for Transaction Fees

Deposit at least 0.001 BNB (plus a small buffer) into your wallet to cover on-chain gas fees.

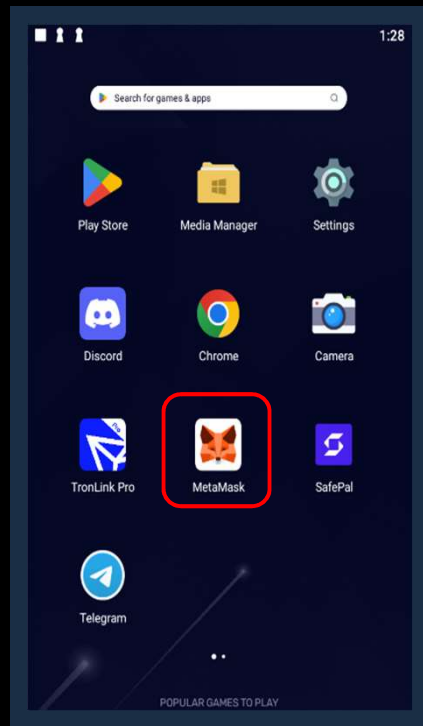

### ③ Minimum 10 USDT (BEP20)

You need at least 10 USDT on the BNB Chain in your wallet to pay the Rank 1 entry fee.

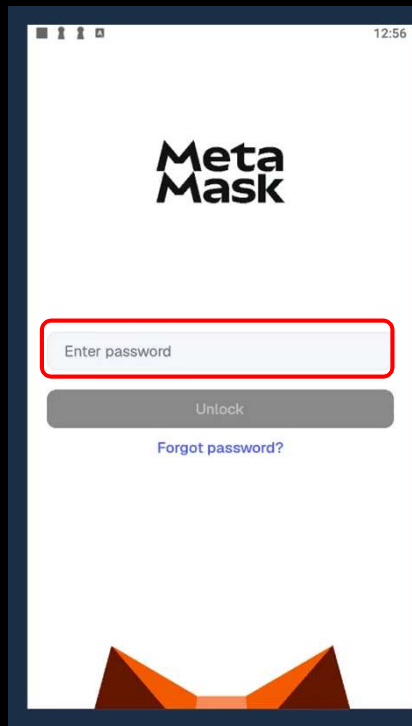

### ④ MetaMask Wallet App

Download and install the MetaMask app on your device. MetaMask's built-in browser is required to interact with the platform.

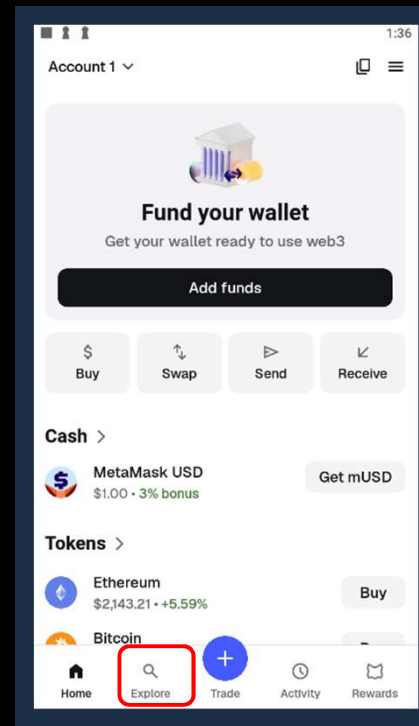

## Step 1–4: Open MetaMask & Navigate to the Platform

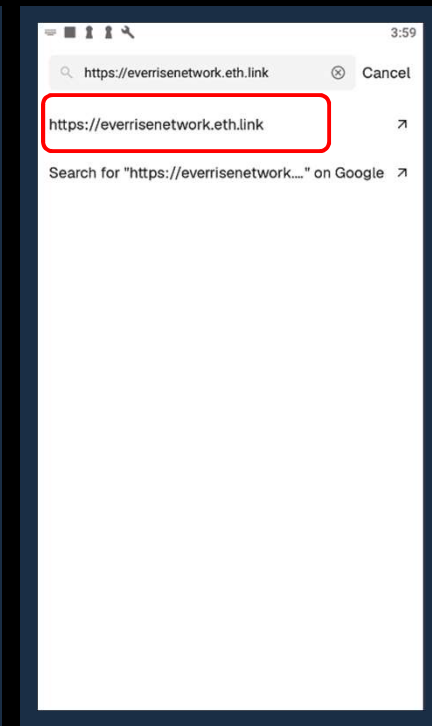

1. Open MetaMask

2. Unlock with password or biometrics

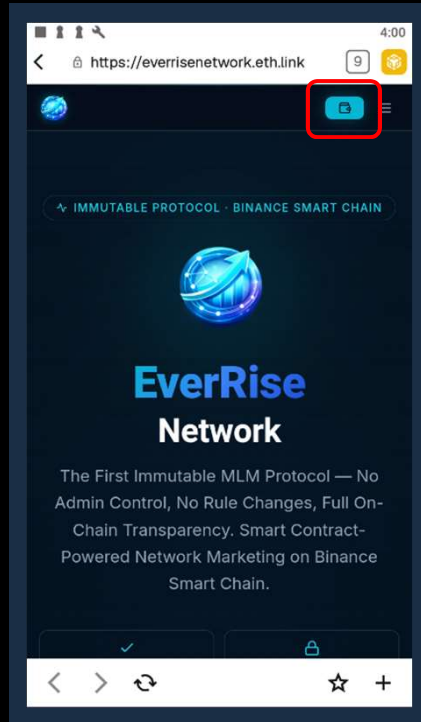

3. Tap 'Explorer'

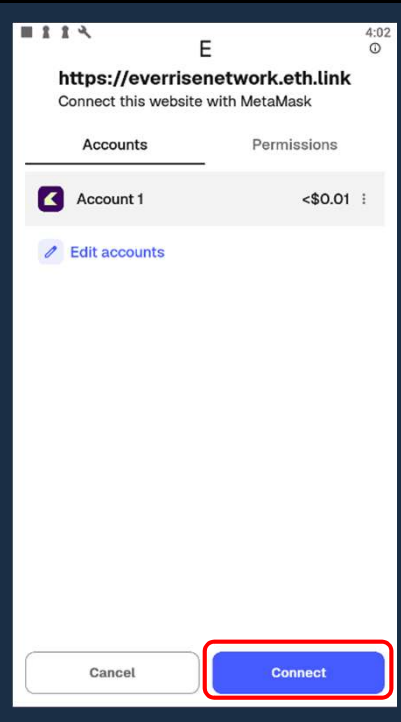

4. Paste your sponsor's referral link → Tap the suggested URL

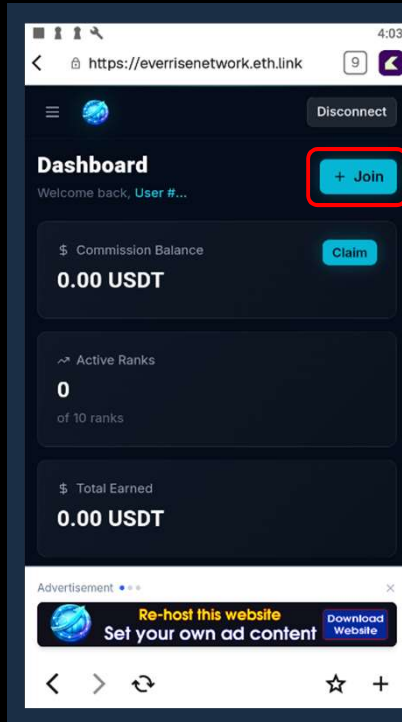

## Step 5-8: Connect Your Wallet to the Platform and join

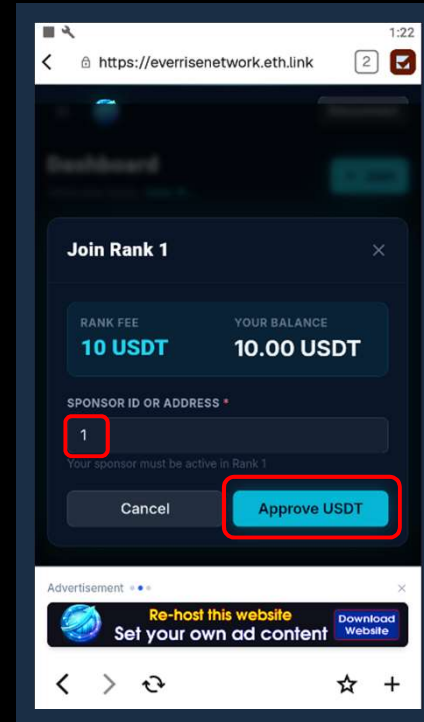

5. Tap the 'wallet' icon (top right) to connect

6. Tap 'Connect' to authorize

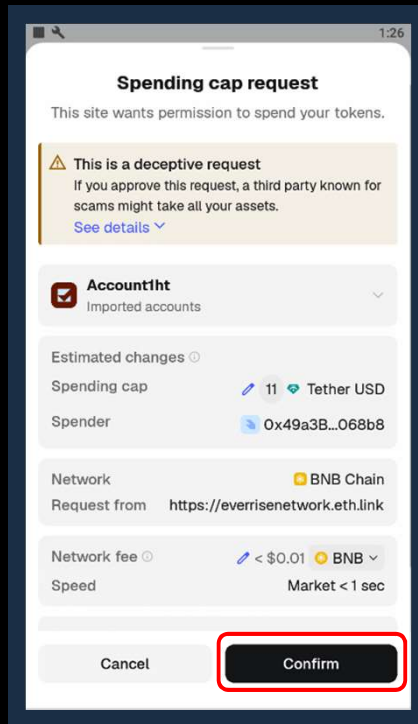

7. Tap the '+ Join' icon (top right) to join

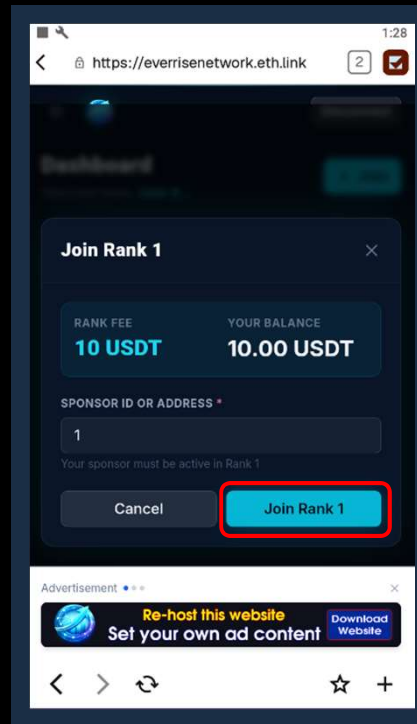

8. Verify Sponsor ID, then tap 'Approve USDT'

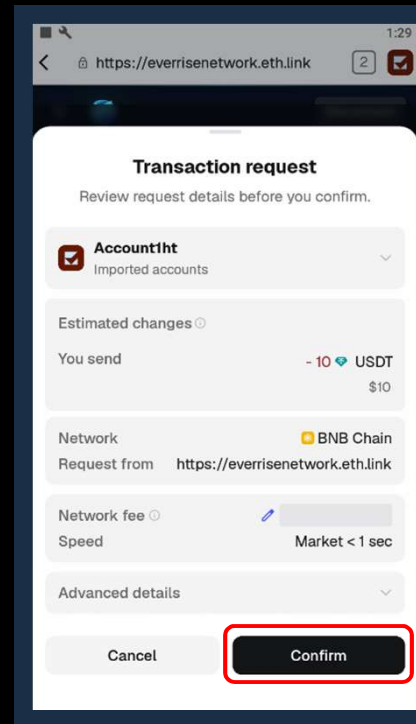

# Steps 9–12: Verify Sponsor ID then Approve USDT & Join rank 1

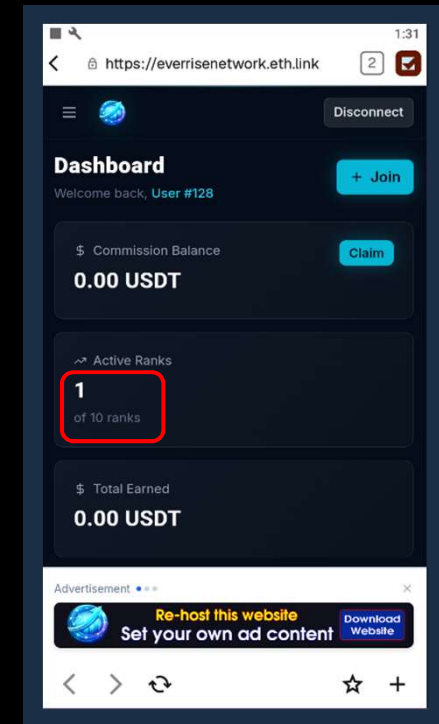

9. Spending cap request tap 'Confirm'

10. Once approved, tap 'Join Rank 1'

11. Review transaction, tap 'Confirm'

12. Success! Active Rank 1 of 10 is now shown

## Steps 13: Join Rank 1 successful

### Your Referral Links

After joining, scroll down on the Dashboard to find two types of referral links:

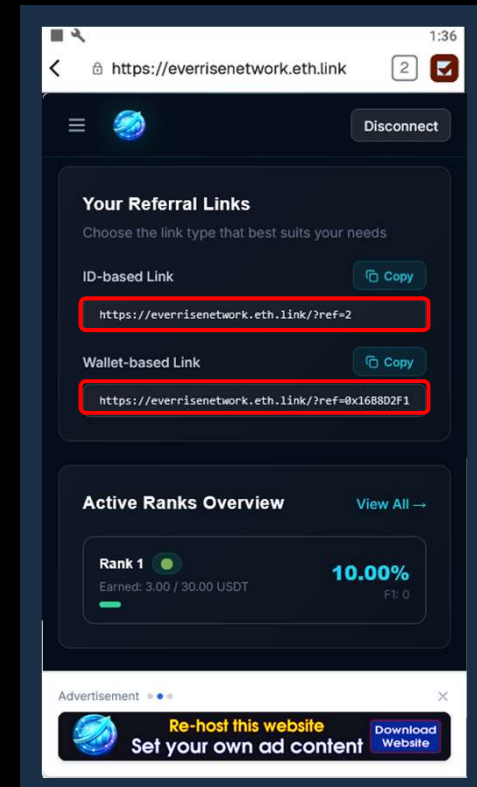

- ID-based Link: e.g. <https://everrisenetwork.eth.link/?ref=2>
- Wallet-based Link: uses your wallet address

Share either link with friends so they join under your sponsorship.

### Joining Additional Ranks (Rank 2–10)

To join Rank 2 and beyond, tap '+Join' again and follow the same steps as Rank 1 — with one key difference:

- ✓ No referral link required — just use the **+Join** button on the Dashboard.
- ✓ No Sponsor ID needed — the system automatically recognizes your Rank 1 sponsor.
- ✓ Each higher rank has a larger fee and a higher earning cap.

### 13. Find your referral links

# You're Ready to Join!

*Visit the platform and connect your MetaMask wallet to get started.*
